

# Historien om BankID med Biometri

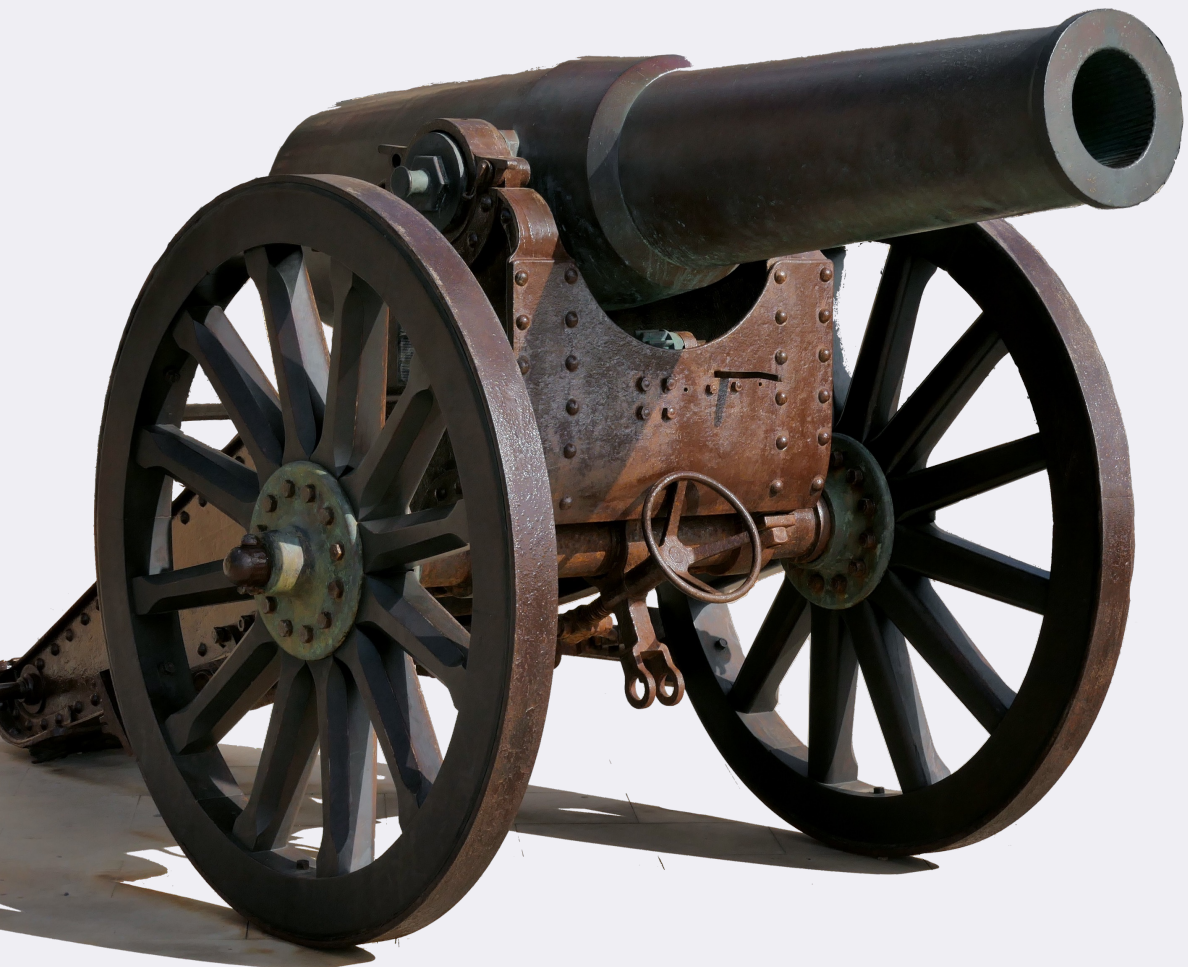

En thriller!

# Biometri

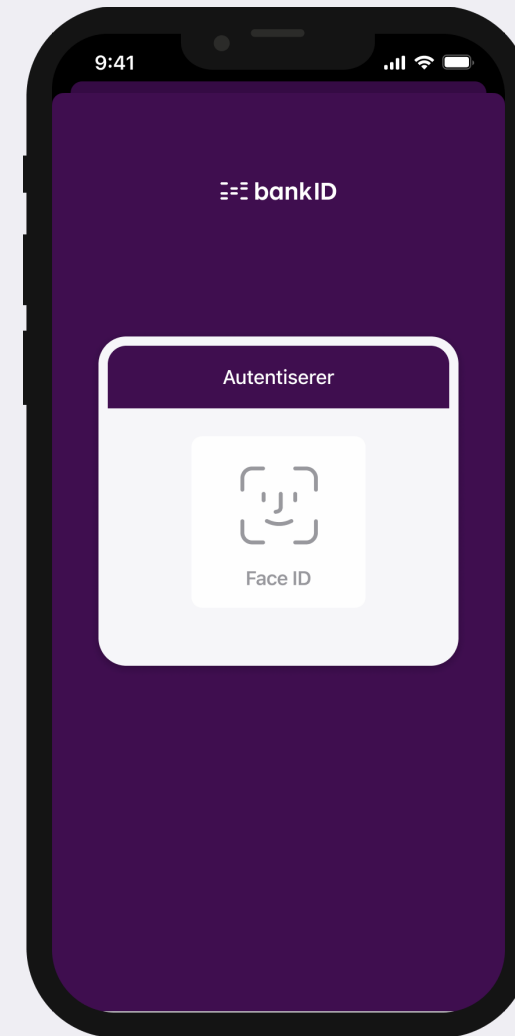

# BankID med Biometri!

- Kjapt, trygt (nok) og billig - ©Kiwi
- App-basert.
- Basert på TEE-bundne nøkler.
- Låst opp med biometri i app.
- Levere et betydelig tillitsnivå.

**fido**<sup>TM</sup>

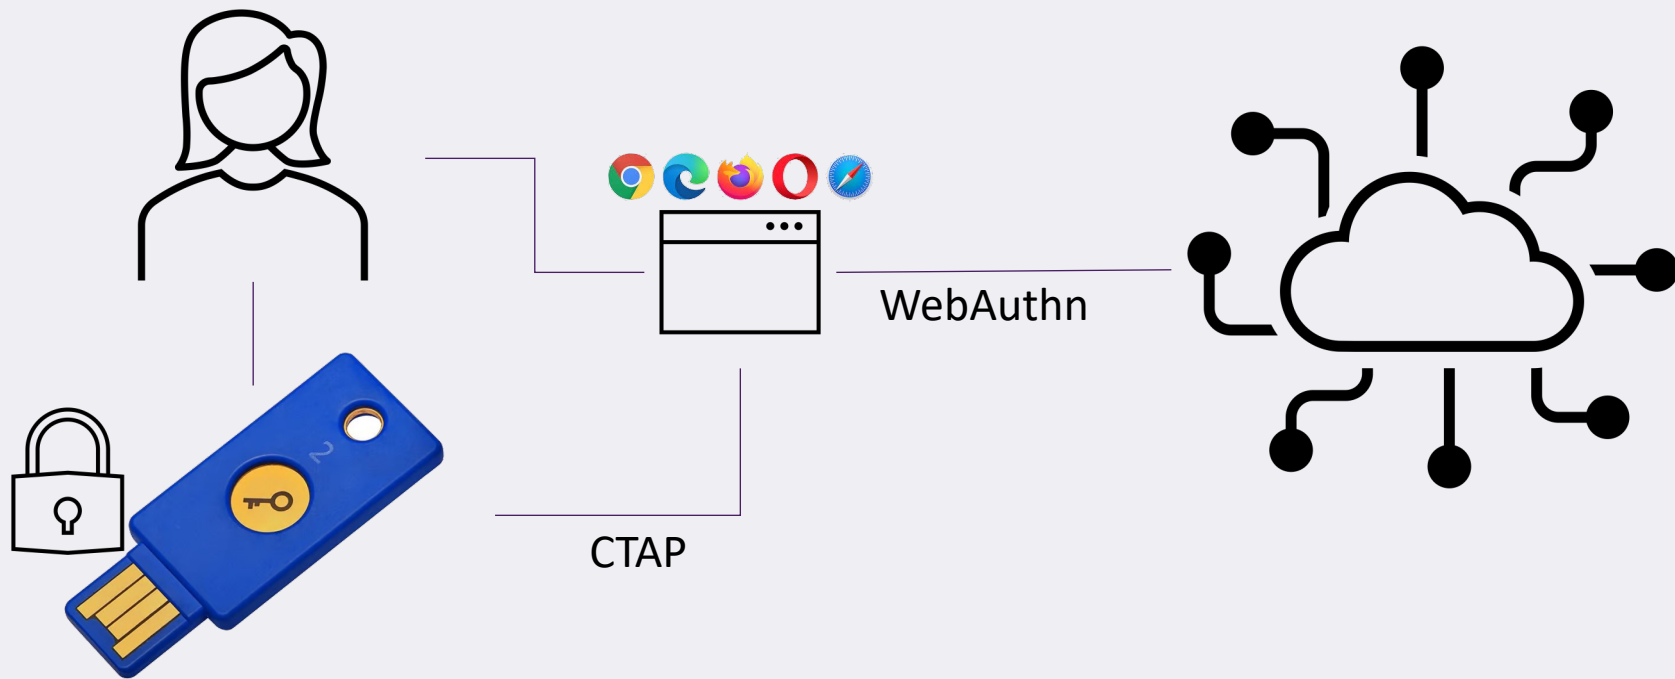

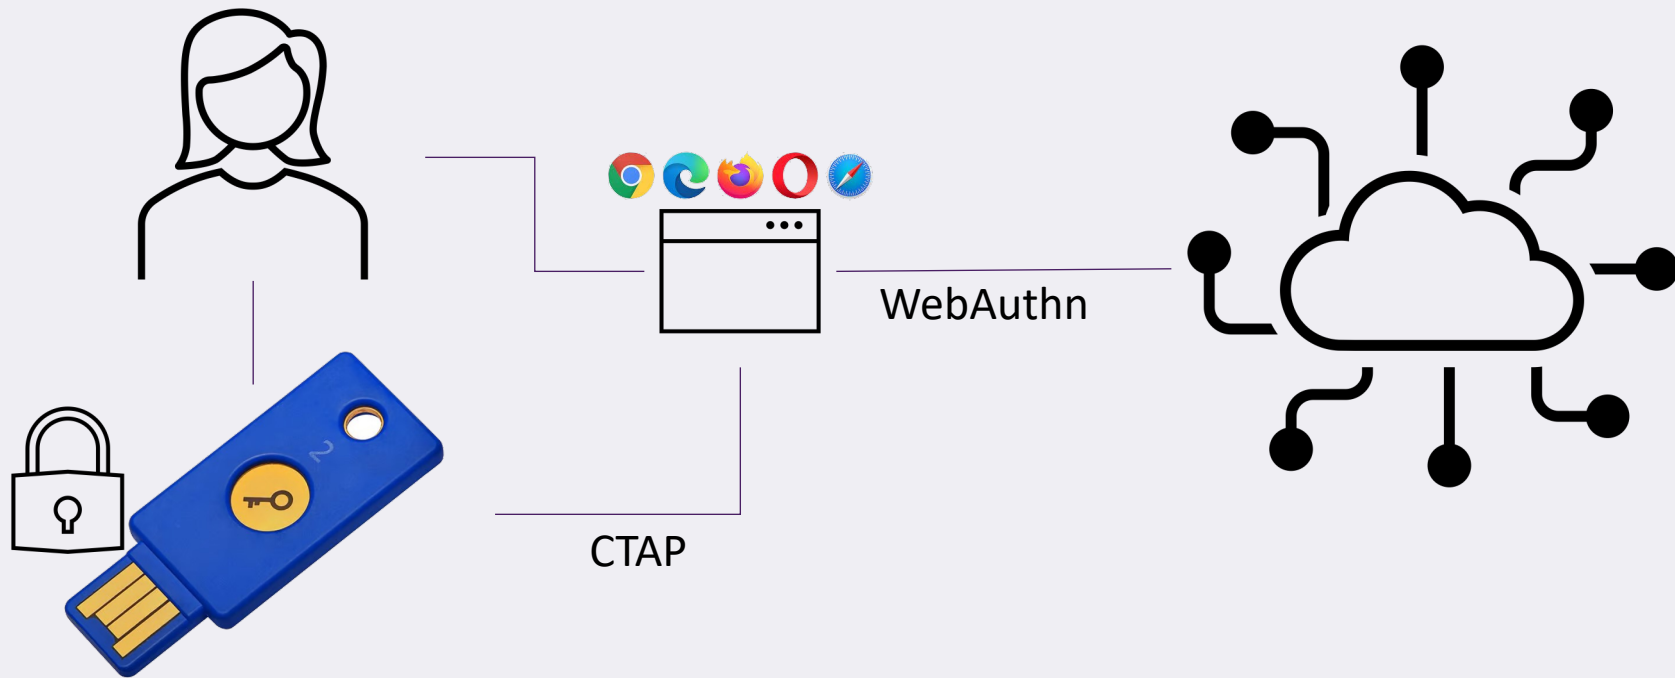

**fido**<sup>TM</sup>

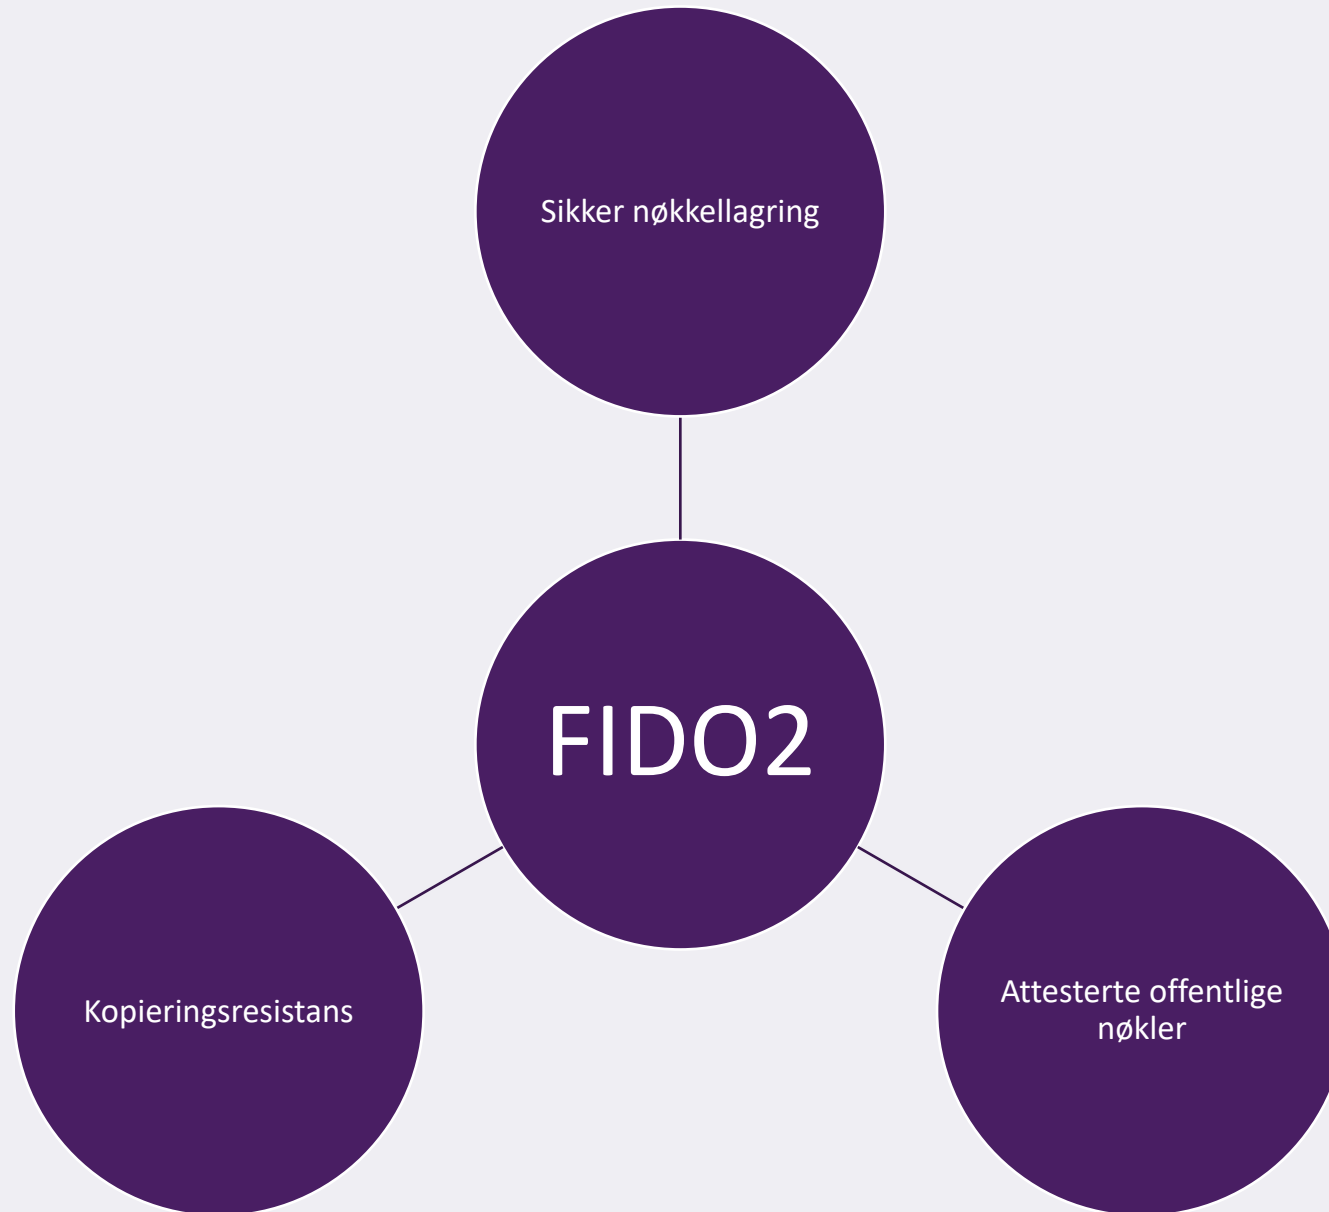

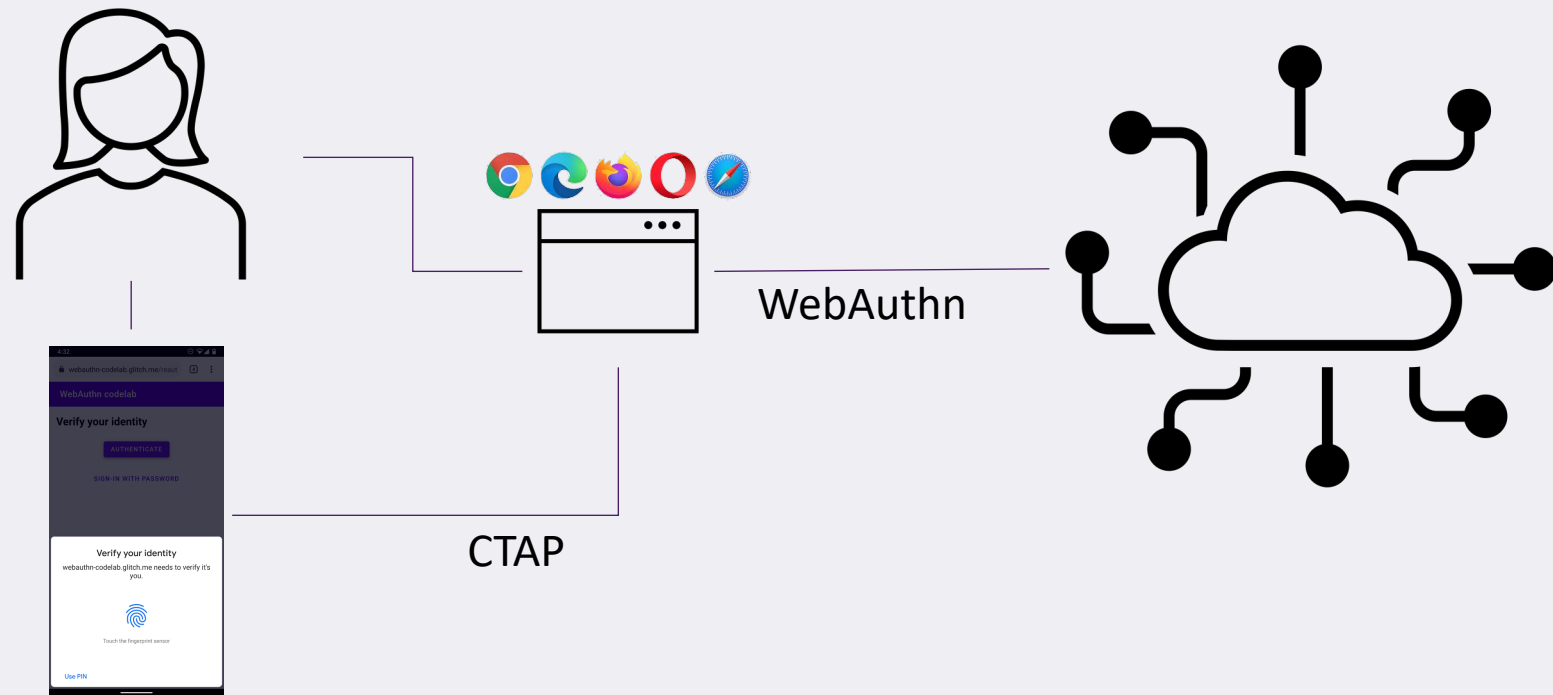

- Phishingresistens
- Ikke noe passord-gjenbruk

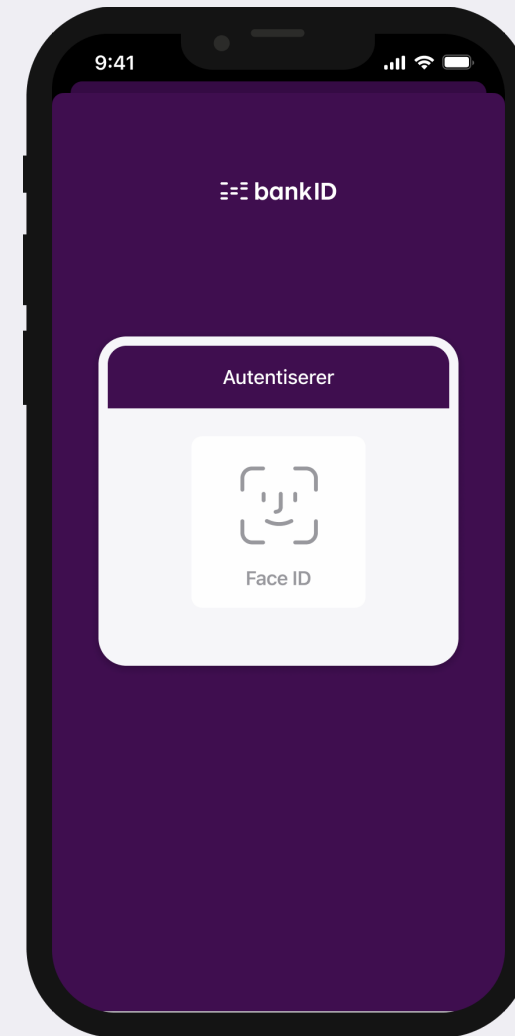

# Men er det trygt nok?

- Kjapt, trygt (nok) og billig - ©Kiwi
- \* App-basert.
  - Delvis – bare innrullering og multi-enhet
- \* Basert på TEE-bundne nøkler.
  - Ja, men bare hvis parameterene er satt rett
- \* Låst opp med biometri i app.
  - Ja, men også med device-passord.
- Leverer et betydelig tillitsnivå.

iOS 16 🔥🔥🔥

Apple WWDC22

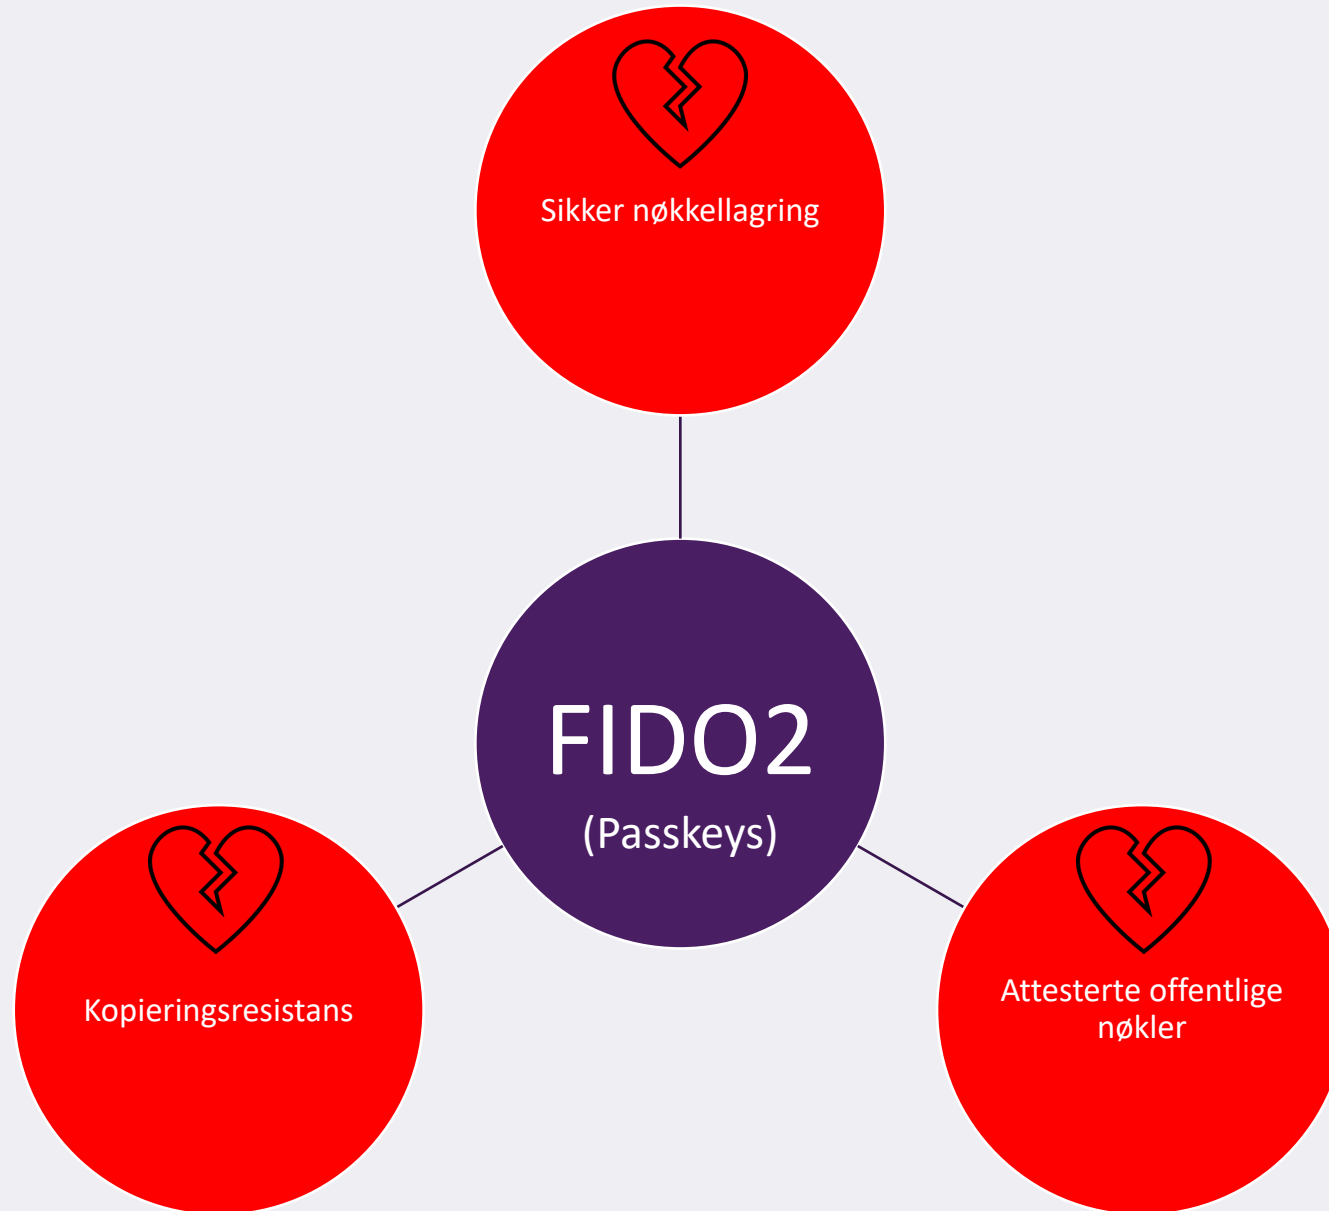

# Meet passkeys

Garrett Davidson, Authentication Experience

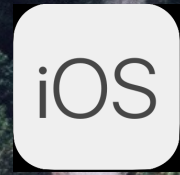

0:08 / 33:26

Volume icon, Full screen icon, More options icon

The video player interface features a dark blue background. At the top left, the text 'Apple WWDC22' is displayed. The main title 'Meet passkeys' is centered in a large, bold, white font. Below the title, the presenter's name 'Garrett Davidson, Authentication Experience' is shown in a smaller white font. At the bottom left, a play button icon is followed by the video progress indicator '0:08 / 33:26'. At the bottom right, there are three icons: a speaker icon for volume, a square with four arrows for full screen, and a vertical ellipsis for more options. A thin white progress bar is visible at the very bottom of the player area.

- **App-basert.**
- Basert på TEE-bundne nøkler.
- Låst opp med biometri i app.
- Levere et betydelig tillitsnivå.

# Lærdom

- Ny teknologi? – *Ha en plan B.*
- WebAuthn? – *Ha et bevisst forhold til autentikatorerne du aksepterer.*
- Forskjellene på original FIDO2 og Passkeys er stor:
  - Original FIDO2 = Tofaktor autentisering på betydelig eller høyere nivå.
  - Passkeys = En meget god passordmanager.
